MAYOR'S OFFFICE,

Brookiyn, N. V. Dec. 21, 1881.

Hon. John Schliemann. Commissioner of Excise.

Bear Sir: I am in receipt of your communication of the 20th inst. In which you decline to
accede to my request for your resignation as
Commissioner of Excise. I assume you have
reached this cenclusion after a consideration of
your legal rights. It is probably true that the
law will not justify me in taking steps to effect
your removal. In making my request. I did not
assume that it would.

your removal. In making my request. I did not assume that it would.

I hased my request upon the promise which I received from you and others at the time the appointments were made, that your and their resignations would be subject to my request. I did not suppose that such an understanding would require a legal interpretation. If you sawment that it does. I am constrained to permit the matter to rest in its present shape.

It is proper that I should add, for general information, that I have never questioned the authority of the Excise Board to be the sole judge, within the limits of the law, of the expediency of granting a license for any particular location. The complaint in the present case is that a license was granted after an assurance from you that it would not be granted and before any notice of a change of purpose on your part, thus preventing those in interest from making the protest which they desired to make.

I acknowledge your personal assurance that the matter was overlooked without intentional wrong, but, nevertheless, the fact remains that certain citizens have been prevented from exercising their rights and for whatever damage they may suffer no present redress exists. Respectfully yours.
